

This Sunday, May 21, was special to us because you called for this little people to spend a day of prayer together with You. We did not receive the usual message, but your presence was strong and clear. As usual, some brothers and sisters have seen you with the gift of vision and they are aware of their designs. But those who have not seen you have tasted your presence in the form of a great joy that united us in a special way throughout the morning and the early afternoon. It was really unique to pray together with you and Your Mother all the mysteries of the Rosary. We have experienced how true the promise is made, that where two or more people are reunited in your name, you are for sure. And in the gladness we also had the time of conviviality with whom we knew the generosity of the brothers and consolidated the mutual friendship. We are accustomed to receiving your Thanks every Sunday every Sunday for the little time we are able to dedicate you to. To be honest is nothing compared to everything we receive from you in total ingratitude. But today, Lord, let your little people thank you because in the simplicity you have made us taste a little bit of Heaven!
