

Now I tell you or dear children, I always see you diminish I always say that I want a great people here The people do not listen to the Lord They are a people that are getting worse Once they were so much more ignorant But he followed the Lord Adesso who are all studied I believe what I can not tell you But I have said several times: "Be careful Be careful" I also said that I regretted Because I have passed over so many things for forgiveness But that forgiveness made him hurt But I also said that My people have to think about it when My Father has not done it anymore. Two cities are burned down: Sodom and Gomorrah So he said: So the people see that there are those who are in charge. Before the Lord, no one will pass. But the people do not want to believe When they arrive that moment says: "O Lord O Lord" I write you many things but the people do not even I and they read and take it and then put it there and do not even look Dear children Follow My words, because I am with you to teach you those things that you neglect I put everything in writing And I also tell you: Do not neglect My scriptures Why I am a great teaching for you and for those who come behind This teaching parents must pass them on to his children Because everything is written I greet you with a great blessing And I pass with My Hand above each of you I salute you Come always See you soon.
